SUMMARY

Passionate and result-oriented aspiring Data Science student with experience in Python programming language. With a strong foundation in data analysis, I am enthusiastic about deriving actionable insights from complex dataset. A position in an organization that promotes continuous learning and professional development would allow me to apply my passion for visualization to real-world challenges and apply emerging technologies in data science and analytics.

PROFESSIONAL EXPERIENCE

Intern, IBM Technologies Jun 2025 – Jul 2025

- Developed and optimized frontend components, improving user interface responsiveness and usability.
- Collaborated in agile workflows including stand-ups and code reviews, ensuring timely delivery of features.
- Enhanced application performance and cross-browser compatibility through efficient UI design practices.

Frontend Developer Intern, Digitifex Private Limited Jun 2024 – Aug 2024

- Designed and developed responsive web interfaces using HTML, CSS, and JavaScript.
- Integrated UI components and improved user experience through iterative enhancements.
- Contributed to team-based development, ensuring scalable and maintainable code structure.

STEM Research Intern, Agnirva May 2024 – Jul 2024

- Conducted research on space science and satellite technologies, strengthening analytical and scientific understanding.
- Participated in research-driven modules focused on emerging scientific advancements.
- Demonstrated critical thinking and problem-solving in STEM-based applications.

PROJECTS

SmartStock — Stock Price Prediction Web App Jun 2025 – Jul 2025

Time Series Forecasting, Web Development

- Built a stock price prediction system using LSTM and ARIMA models on Yahoo Finance data.
- Achieved over 82% prediction accuracy across 500+ trading days per stock.
- Developed an interactive web interface to visualize actual vs predicted prices and trends.

iRECOMMEND — Personalized Movie Suggestion System Feb 2025 – Apr 2025

Recommender Systems, Web Development

- Developed a personalized recommendation engine using Python-based algorithms.
- Built a dynamic frontend enabling real-time movie search and suggestions.
- Integrated user preference filtering for improved recommendation accuracy.

Game Sales Performance Dashboard Nov 2024 – Nov 2024

Data Visualization, Business Analytics

- Analyzed global video game sales data across platforms, genres, and regions.
- Designed interactive Tableau dashboards for trend analysis and insights.
- Enabled dynamic filtering by time period, region, and game category.

SKILLS

Python	SQL	Pandas	TensorFlow	Docker
Java	HTML	Machine Learning (LSTM, ARIMA)	MongoDB	Responsive Design
JavaScript	CSS	Data Visualization (Tableau, Excel)	FastAPI	UI Development

EDUCATION

Bachelor in Technology in Computer Science Engineering 2022 - 2026

The Northcap University

BGS International Public School, Dwarka (12th CBSE)

BGS International Public School, Dwarka (10th CBSE)

Current CGPA: 7.55

2022 percentage: 71%

2022 percentage: 79%

ADDITIONAL INFORMATION

- Languages:** English, Hindi
- Certifications:** Microsoft Azure AI Fundamentals (AI-900), AWS Academy Data Engineering, DevOps Fundamentals, Introduction to MongoDB, Full Stack Development (Google & Microsoft)
- Awards/Activities:** Graphic Head — The Puzzle Club (Aug 2024 – Present)
 - Designed event posters and digital creatives, improving engagement and visibility
 - Organized and coordinated creative and technical events
- Interests:** Reading, Painting, Sketching
